IMPORTANT NOTICE TO PROPERTY OWNER:

THANK YOU FOR CHOOSING THE GOLDEN PLEDGE LIMITED WARRANTY! THIS IS AN INTERIM WARRANTY THAT WILL EXPIRE 90 DAYS FROM DATE OF INSTALLATION. IT IS YOUR CONTRACTOR'S RESPONSIBILITY TO REGISTER THIS WARRANTY WITHIN 45 DAYS OF INSTALLATION. IF YOU HAVE NOT RECEIVED YOUR PERMANENT WARRANTY FROM GAF IN THE MAIL WITHIN 60 DAYS, YOU SHOULD CALL GAF AT: 1-888-532-5767, OPTION 1.

What Is Covered/Excluded. This Golden Pledge® Limited Warranty covers certain GAF roofing products installed on your roof (the "GAF Products") including GAF Shingles, GAF Ridge Cap Shingles, GAF Starter Strip Shingles, GAF Leak Barrier, GAF Roof Deck Protection, GAF Cobra® Attic Ventilation, and GAF-labeled Ultimate Pipe Flashing with EasySleeve (manufactured by Lifetime Tool™ & Building Products LLC). This warranty does not cover ShingleMatch™ Roof Accessory Paint, MasterFlow® Attic Ventilation, or low-slope membranes (each of which is covered by a separate limited warranty) or any non-GAF roof products, such as roofing nails. Misapplication of your GAF Products and flashings at valleys, dormers, chimneys, and plumbing vents (the "Covered Flashings") is also covered.

Who Is Covered by This Limited Warranty; Transferability. You are covered by this warranty if you live in the United States or Canada and are the original property owner (i.e., not a builder or installer) or the first subsequent owner if this warranty was properly transferred.

This limited warranty may be **transferred only once**. The second owner must notify GAF in writing within **60 days** after the property transfer has occurred for any coverage to be transferred. (Other than this one transfer, this warranty may **not** be transferred or assigned, directly or indirectly.) If the transfer takes place during the first 20 years, the second owner shall be entitled to all benefits contained in this warranty. If the transfer takes place afterwards, the length of this warranty shall be reduced to the two-year period after ownership changes. During this two-year period, GAF's reimbursement to the second owner will be based only on the reasonable cost of replacement GAF Products, reduced by the amount of use that has been received from the GAF Products from date of installation through the date of claim.

How Long Your Warranty Lasts: All GAF Products. Coverage begins when your GAF Products are installed. Coverage for all GAF Products lasts as long as the warranty for manufacturing defects for the type of shingle installed in the field of the roof. Note: If cut-up GAF Strip Shingles are used instead of the eligible GAF Ridge Cap Shingles, the warranty and non-prorated period for the cut-up strip shingles are the same as they would be if those shingles were used in the field of the roof.

Manufacturing Defects: Lifetime Shingles. All GAF Shingles covered by this warranty other than Royal Sovereign® and Marquis® WeatherMax® Shingles carry a Lifetime warranty against manufacturing defects and a non-prorated period of 50 years. (Note: This limited warranty is not available for roofs with Sentinel® Shingles.) The word "Lifetime" means as long as you, the original owner(s) [or the second owner(s) if coverage was properly transferred within the first 20 years], own the property where the shingles are installed. The Lifetime warranty term and 50-year non-prorated period are applicable only to shingles installed on a single-family detached residence owned by individual(s). For any other type of owner or building, such as a corporation, governmental entity, religious entity, condominium, or homeowner association, school, apartment building, office building, or multi-use structure, the length of the warranty is 40 years and the non-prorated period is 20 years.

Manufacturing Defects: Other Shingles. Marquis® WeatherMax® Shingles are warranted against manufacturing defects for 30 years; Royal Sovereign® Shingles are warranted for 25 years. The non-prorated period is 20 years for both Marquis® WeatherMax® and Royal Sovereign® Shingles.

Misapplication: GAF Products and Covered Flashings. When Lifetime Shingles are installed in the field of the roof, coverage for application errors, including the misapplication of Covered Flashings, lasts for the first 25 years after installation for single family detached residences owned by individual(s). For other types of owners or buildings and for shingles other than Lifetime Shingles, coverage lasts for 20 years.

Failure to Seal/Blow-Offs/Wind Damage. Coverage lasts for 15 years.

Algae Discoloration. All StainGuard®-labeled shingles and ridge cap shingles are warranted against algae discoloration for 10 years.

Manufacturing Defects: What Is Covered/Sole and Exclusive Remedy.

GAF Warranty Company, LLC, a subsidiary of GAF, warrants that your GAF Products will remain free from manufacturing defects and that your GAF Products and Covered Flashings will remain free from application errors that adversely affect their performance during the applicable warranty term listed above. **Note:** Failure to seal/blow-offs/wind damage and algae discoloration are covered separately below.

(a) **During the non-prorated period:** If any of your GAF Products is found to have a manufacturing defect or there is an application error in installing your GAF Products or Covered Flashings that adversely affects performance, GAF will pay you the full reasonable cost of labor to repair or re-cover the affected GAF Product(s) or Covered Flashings, and will provide replacement products. The costs of labor to tear off some or all of your GAF Products and disposal are included if necessary to repair your roof.

(b) **After the non-prorated period:** The repair or re-cover cost which GAF will pay, and the roof products to be provided, will be reduced to reflect the amount of use you have received from your roof through the date of your claim. The amount of use will be calculated by dividing the number of months which have elapsed since installation to the date of claim by the number of months in the warranty term.

For a Lifetime warranty, GAF's contribution in years 51 and beyond will be 20%.

Misapplication: What Is Covered/Sole and Exclusive Remedy.

If any of your GAF Products or Covered Flashings is found to have an application error that adversely affects performance, GAF will arrange to have your roof repaired or re-covered or, at its sole option, will provide you with replacement roofing product(s) and reimburse you for the full reasonable cost of labor and other materials to repair or re-cover your roof, including Covered Flashings. The costs of labor to tear off some or all of your GAF Products and Covered Flashings and disposal are included if necessary to repair your roof.

After the non-prorated period, GAF's maximum liability for any roof shall NOT exceed three times the reasonable cost of replacement GAF Products before any reduction for use.

Failure to Seal/Blow-Offs/Wind Damage: What Is Covered/Sole and Exclusive Remedy.

GAF warrants to you that your shingles and ridge cap shingles will not fail to seal and that your shingles and other GAF Products will not blow off or sustain damage from winds (including gusts) up to the applicable wind speed listed below after your shingles and ridge cap shingles should have sealed but did not due to a manufacturing defect. If your shingles or ridge cap shingles do fail to seal, blow off, or sustain wind damage, or your other GAF Products blow off or sustain damage from winds, GAF's contribution to you will be for the reasonable costs of replacing the blown-off shingles or ridge cap shingles and other affected GAF Products and hand-sealing any unsealed shingles or ridge cap shingles. Costs relating to metal work and flashings are not included. GAF's maximum liability under this paragraph is to reimburse you for the cost of hand-sealing all of the shingles or ridge cap shingles on your roof.

Shingle	Wind Speed Coverage with special installation (mph / km/h)	Wind Speed Coverage without special installation (mph / km/h)
All Lifetime	130/209*	110/175
Marquis® WeatherMax®	80/130	80/130
Royal Sovereign®	60/96	60/96

*Your roof will be covered up to the maximum wind speed above **ONLY** if your shingles are installed using **6 nails** per shingle **and** you have GAF Starter Strip Products installed at the eaves **and** rakes.

Ridge Cap Shingle	Wind Speed Coverage with special installation (mph / km/h)	Wind Speed Coverage without special installation (mph / km/h)
Timbertex® & Ridglass®	130/209*	110/175
All other	90/144*	70/112

*Your ridge cap shingles will be covered up to the maximum wind speed above **ONLY** if your ridge cap shingles are installed in strict accordance with the "Maximum Wind Speed Coverage Under Ltd. Warranty" section of the applicable ridge cap shingle application instructions.

Algae Discoloration: What Is Covered/Sole and Exclusive Remedy

This StainGuard® Limited Warranty applies **only** to shingles and ridge cap shingles sold in packages bearing the StainGuard® logo. GAF warrants to you that blue-green algae (also known as cyanobacteria) will not cause a pronounced discoloration of your **StainGuard® labeled** shingles or ridge cap shingles. During the **first year**, if your StainGuard® labeled shingles or ridge cap shingles do exhibit a pronounced discoloration caused by blue-green algae, GAF's contribution will be either the reasonable cost of commercially cleaning your shingles or ridge cap shingles or, at GAF's option, replacing discolored shingles or ridge cap shingles up to a **maximum** of the original installed cost of the affected shingles or ridge cap shingles. During the **remainder** of the StainGuard® warranty period, GAF's contribution to you will be reduced to reflect the amount of use you have received from your shingles or ridge cap shingles since they were installed (100%, reduced by a percentage equal to the number of months from the installation date to the date of claim divided by 120). **Note:** Preventing pronounced algae-related discoloration of your shingles or ridge cap shingles is achieved through formulations or through unique blends of granules.

What Is Not Covered. Even if your roofing system was not properly installed according to GAF's published application instructions or to standard good roofing practices, this limited warranty remains in effect. However, GAF will NOT be liable for and this warranty does NOT apply to:

- Damage to your GAF Products resulting from anything other than an inherent manufacturing defect in the GAF Products on your roof, their misapplication, or the misapplication of Covered Flashings, such as:
 - settlement, movement, or defects in the building, walls, foundation, or the roof base over which your roof system was applied.
 - inadequate attic ventilation.
- Damage to your GAF Products resulting from causes beyond normal wear and tear such as:
 - acts of nature, such as hail, winds (or gusts) over the applicable wind speed listed above, or ice damming above the area covered by GAF's Leak Barriers or above flashings.
 - impact of foreign objects or traffic on the roof.
 - improper storage or handling of any GAF products.
- Shading or variations in the color of your shingles or ridge cap shingles, or discoloration or contamination caused by fungus, mold, lichen, algae (except for blue-green algae if your shingles or ridge cap shingles were labeled with the StainGuard® logo), or other contaminants, including that caused by organic materials on the roof.
- Damages caused by, or the cost to repair or replace, products not sold by GAF, including, but not limited to, metal work, and counter flashing.
- Improperly designed or installed gutter or downspout systems.
- Damage to the interior or exterior of any building, including, but not limited to, mold growth.
- Damage to or caused by rooftop air conditioning units (and their flashing), pipe works, brace works, skylights, rooftop satellite dishes or other radio/TV devices, counter flashing, or flashings other than those specifically included above.

Other Limitations Concerning Coverage. Decisions as to the extent of repair, re-cover, or cleaning required, and the reasonable cost of such work, will be made solely by GAF. GAF reserves the right to arrange directly for your roof products to be repaired, re-covered, or cleaned instead of reimbursing you for such work. The remedy under this warranty is available only for those GAF Products actually exhibiting manufacturing defects, application errors (including misapplication of Covered Flashings), or blue-green algae growth at the time of settlement. Any replacement GAF Products will be warranted only for the remainder of the original warranty period. GAF reserves the right to discontinue or

modify its shingles or accessories, including the colors available, so any replacement shingles or accessories may not be an exact match for the shingles or accessories on your roof. Even if GAF does not modify a color, replacement shingles or accessories may not match your original shingles or accessories due to normal weathering, manufacturing variations, or other factors.

Claims: What You Must Do.

You must notify GAF about any claim within **30 days** after you notice a problem and provide proof of the date your GAF Products were applied and that you were the owner at that time (or that the warranty was properly transferred to you). You must either call GAF at 1-800-458-1860 about your claim, or send a notice in writing to GAF, Warranty Services Department, 1361 Alps Road, Wayne, New Jersey 07470, USA. You will then be provided with complete details about submitting your claim. GAF may require you to send to GAF, at your expense, sample products for testing and photographs. Within a reasonable time after proper notification, GAF will evaluate your claim and resolve it in accordance with the terms of this warranty. Any claim for products that have been replaced before notifying GAF of your claim may be denied. **NOTE: Notice to your contractor, dealer, or homebuilder is NOT notice to GAF.** You should retain this document for your records in the unlikely event that you need to file a claim.

Sole and Exclusive Warranty. THIS WARRANTY IS EXCLUSIVE AND REPLACES ALL OTHER WARRANTIES, CONDITIONS, REPRESENTATIONS, AND GUARANTEES, WHETHER EXPRESS OR IMPLIED, WHETHER BY STATUTE, AT LAW OR IN EQUITY, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. This written warranty is your exclusive warranty from GAF and represents the SOLE REMEDY available to any owner of GAF Products. GAF makes NO OTHER REPRESENTATIONS, CONDITIONS, GUARANTEES, OR WARRANTIES of any kind other than that stated herein. GAF WILL NOT BE LIABLE IN ANY EVENT FOR CONSEQUENTIAL, PUNITIVE, SPECIAL, INCIDENTAL, OR OTHER SIMILAR DAMAGES OF ANY KIND, including DAMAGE TO THE INTERIOR OR EXTERIOR OF ANY BUILDING, whether for breach of this warranty, negligence, strict liability in tort, or for any other cause. Some jurisdictions do not allow limitations on or the exclusion of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

Modification of Warranty. This limited warranty may not be changed or modified except in writing, signed by an officer of GAF. No one (other than an officer of GAF) has the authority to assume any additional liability or responsibility for GAF in connection with your GAF Products and Covered Flashings except as described in this warranty. This warranty gives you specific legal rights, and you may also have other rights which vary from jurisdiction to jurisdiction.

Special Notes: First Two Years. If your claim arises out of an application error in your GAF Products or Covered Flashings, which is discovered or discoverable within the first two years after installation, it is the obligation of your Master Elite™ Roofing Contractor to make all necessary repairs. In the event that your Master Elite™ Roofing Contractor is unable or unwilling to perform these repairs, GAF will arrange to have your roof repaired if the issues were caused by application errors within the scope of GAF liability under this limited warranty.

Ventilation/Flashings. Due to the design of certain buildings, installation of minimum adequate ventilation or the replacement of existing flashings may be difficult, costly, or impractical. Please be sure to review these items with your roofing contractor.

Effectiveness: This limited warranty will not take effect unless all eligibility requirements have been satisfied, this warranty is registered to you, and your roofing contractor has been paid in full.

Eligibility Requirements for the Golden Pledge® Ltd. Warranty

To be eligible for the Golden Pledge® Ltd. Warranty, you **MUST** fulfill these requirements:

- You **MUST** install a full roof; roofs installed on *portions* of buildings (such as half a roof on a duplex structure) do not qualify.
- Your roof **MUST** be installed by a GAF Master Elite™ Roofing Contractor.
- The roof system must **NOT** be installed over an existing roof—all existing materials must be removed to the deck.
- You **MUST** use GAF Roof Deck Protection (see Application Form for eligible products). Note: If eligible products are not available, you may substitute any #30 ASTM D4869 felt or any #15 or #30 ASTM D226 felt.
- You **MUST** use GAF Leak Barrier in valleys and around dormers, side walls, firewalls, chimneys, plumbing vents, and skylights (see Application Form for eligible products). In addition, in the North (see map), an eligible Leak Barrier product **must** also be used at all eaves to at least 24" inside of the warm wall. Leak Barrier is **highly recommended** (but **not** required) at all roof rakes and other vulnerable leak areas.
- You **MUST** use GAF pre-cut Starter Strip Shingles (only those with factory-applied adhesive) at the eaves (see Application Form for eligible products). Note: To obtain **maximum** wind coverage, you must use eligible GAF pre-cut Starter Strip Shingles (with factory-applied adhesive) at the eaves **and** rakes, **and** you must install each field shingle using 6 nails.
- You **MUST** use a COBRA® Attic Ventilation product with adequate intake ventilation (see Application Form for eligible products). (Note: GAF Master Flow® Exhaust Ventilation Products—which are covered by a separate ltd. warranty—can be substituted **ONLY** if COBRA® Ridge Ventilation cannot be installed due to a structure's architecture, e.g., post and beam construction, shed roofs, etc.) In any event, ventilation **MUST** meet the following standards:

Minimum net free ventilation area of 1 sq. foot/meter per 150 sq. feet/meters of ceiling area is required. When intake vents are located at the eaves and exhaust vents are located near the roof's peak (in a properly balanced system) for maximum air flow, ventilation may be reduced to 1 sq. foot/meter per 300 sq. feet/meters.
- You **MUST** use eligible GAF Roofing Shingles (see Application Form for eligible products).
- You **MUST** use GAF Ridge Cap Shingles (see Application Form for eligible products) or shingles that correspond to the shingle product you are installing, as follows:

GAF SHINGLE INSTALLED	CORRESPONDING GAF RIDGE CAP SHINGLES
Royal Sovereign®	<ul style="list-style-type: none"> • Cut-up Royal Sovereign® Shingles • Cut-up Marquis® WeatherMax® Shingles • Any GAF Ridge Cap Shingle
Marquis® WeatherMax®	<ul style="list-style-type: none"> • Cut-up Marquis® WeatherMax® Shingles • Any GAF Ridge Cap Shingle
All Other Shingles	<ul style="list-style-type: none"> • Any GAF Ridge Cap Shingle

- To improve the finished look of the roof, the use of ShingleMatch™ Roof Accessory Paint is highly recommended (but **not** required). ShingleMatch™ Roof Accessory Paint is covered by a separate limited warranty.
- For maximum weather protection, the use of GAF labeled Ultimate Pipe Flashing at all plumbing vents is highly recommended (but not required) Ultimate Pipe Flashing will be covered under the Golden Pledge® Limited Warranty but will not fulfill a required accessory product category.
- New metal flashing(s) **MUST** be installed (unless existing flashing(s) are in like-new condition or are at "unworkable" wall interfaces). Metal drip edge **MUST** be used at eaves and is **recommended** (but **not** required) at rake edges.

In addition to the requirements listed above, your Contractor must register and pay for this warranty within **45 days after installation**. The warranty can be registered online at GAF Certified Contractor Zone (visit ccz.gaf.com) or the attached Warranty Application Form and appropriate registration fee can be mailed to GAF. If your Contractor has not registered your warranty within **45 days** after installation, GAF reserves the right not to issue the Golden Pledge® Ltd. Warranty.

Special Note: On projects that total more than 250 squares, the permanent Golden Pledge® Ltd. Warranty will be issued **only** if the project passes GAF's final inspection. GAF reserves the right to withhold the warranty if the roof has not been installed according to GAF's published application instructions. (GAF also strongly recommends that your Master Elite™ Contractor schedule a *start-up* and at least one *interim* inspection on projects of 250 squares or more by contacting GAF at least three weeks prior to the start of roof work.)

Note: In Canada, only the GAF and Timberline® logos are registered trademarks.

*Review *Golden Pledge Ltd. Warranty* (at right) for complete coverage and restrictions. Also note:

- Contractor certification is only for installations covered by GAF system warranties.
- The word “Lifetime” means as long as you, the original owner(s) of a single family detached residence [or the second owner(s), if coverage was properly transferred during the first 20 years], own the property where the shingles and accessories are installed. For owners/structures not meeting above criteria, Lifetime coverage is not applicable. Lifetime ltd. warranty on accessories requires the use of at least five qualifying GAF accessories and the use of Lifetime Shingles.

Exclusive 40-Point Inspection Of Your Finished Roof!

PERFORMED BY GAF'S PROFESSIONAL INSPECTION TEAM

Ensuring attic ventilation and accessories are installed properly to maximize performance and prevent future leaks

Ensuring ridge cap shingles are fastened properly and to the correct exposure, avoiding shingle blow-off.
